

# U.S. TRUCKING MARKET IMPACT ON MSC SERVICES

## MSC CUSTOMER ADVISORY

**23 March 2018**

Dear Customers,

Due to supply problems in the U.S. trucking market dating back to mid-2017, carriers including MSC Mediterranean Shipping Company have regrettably been forced to reduce door delivery in some parts of the country.

MSC is continuing to conduct door deliveries for shippers in many regions, where market conditions allow.

In some congested areas we can only continue to provide these services in a timely way by modifying our rates and adding surcharges on certain bookings.

We continue to offer full port-to-ramp services in the U.S.

MSC is monitoring initiatives by major trucking companies to invest in their fleets and driver workforce and we hope to see some stabilization in the market situation in the coming months.

For further details, please contact your local MSC agency.
