### 13) SECURITY NOTIFICATION:

C-TPAT minimum security criteria is available to all importers on Customs website at: ([www.cbp.gov](http://www.cbp.gov)). CTPAT is a program designed to protect our nation against threats of terrorism through our supply chains. We encourage importers to review these requirements and consider participation in this program.

Importers must also be aware that conveyance security is critical to all our safety. Customs has made available documents describing the importance of security procedures at point of stuffing, procedures to inspect, properly seal and maintain the integrity of the shipping containers and trailer including a detailed presentation on how to perform a 7 point inspection on containers and a 17 point inspection on trailers.

Importers: The sealing of trailers and containers was mandated as part of the Safe Port Act of 2006. Continuous seal integrity is a crucial element of a secure supply chain. Importers must ensure that seals used to secure loaded containers and trailers bound for the U.S. meet or exceed current ISO PAS 17712 standards for high security seals. It is further recommended that importers institute procedures for recognizing and reporting compromised high security seals to CBP or an equivalent foreign authority.

MIQ has made these procedures available through our website at: [http://www2.miq.com/cms/site/importexport\\_resources/index.html](http://www2.miq.com/cms/site/importexport_resources/index.html) or on CBP's website at [http://www.cbp.gov/xp/cgov/newsroom/fact\\_sheets/port\\_security/container\\_sealing.xml](http://www.cbp.gov/xp/cgov/newsroom/fact_sheets/port_security/container_sealing.xml)
